Course Title: LA, Secondary ELA Cohort

Course Description: This workshop is designed to allow teachers to explore the three different but distinct pathways of study for common core proficiency in practice. What that means is that teachers will become familiar with what practice in each of the three pathways looks like and how to plan for effective instruction within all three for All students including ELD. In this workshop ELA and ELD have joined forces in order to create a more in-depth and through study of Common Core practice and standards in order to support teachers through this change.
