

Detailed Search Features for Sections/Courses

Instructions

- Search for professional learning opportunities

There are multiple search options:

1. General search
2. Advanced search
3. Evaluation Effectiveness Standards
4. Subjects

- The general search lets a user enter a word search

Quotes around words will lock the words together ("Language Arts")

If two words are entered without quotes to lock them together, the results will return courses that have one word OR the other word (If you enter Language Arts without quotes, you will get results such as Language Development, Art Exploration, etc)

- The advanced search tool lets a user search by course title, course description, course number, section title, dates, or section number
